N s isad naoptaea t te GØNBD de G4WGT had to chucke about the 5 WHATS
mails.....how about trying it without the Coke Choke or just hoisting a smaller
wire to test the theory....OK the noise...has anyone had a solar panel fitted...I
have heard they can cause noise problems diring day but quiet at night because
they are not operating in dark.....you could try another direction run for the
wire & compare it.....Ko d
